III. Sportshot participant photography

In a few days after the 2nd OTS 2025 your participant pictures will be available at Sportshot:

Your photos are available at Sportshot: <https://www.sportshot.de/9620365/>

Search for your photos with your selfie / search by face / or with the start number search or select 'Select start number here'.

This is the easiest way to get to your photos / photo flat (all photos for your start number). For some photos we could not assign a start number. If you cannot find any photos at using the bib number search and face recognition, please search for your photos under 'Show all photos without recognised bib number'. You can then add your photos to your photo flat rate (download all your personal photos for € 26.90) free of charge. You can also add impressions to your photo flat free of charge.

You can use the time period search to find your photos more quickly.

You can find out how to put together your photo flat rate here:
<https://www.sportshot.de/page/so-bestellst-du-deine-foto-flat>. Alternatively, you can order them via the e-mail address info@sportshot.de.

XIII. Handling grazing livestock

Please be sure to observe the 10 rules of behavior for dealing with grazing livestock, as many sections of the OTS in Obertauern run through alpine pastures!

10 Rules for a safe holiday around cattle

Please move respectfully on alpine pastures and meadows and show consideration for other recreational athletes. Cyclists should adapt their behaviour to the local conditions and should always expect grazing cattle and dirt on the road. Following these ten simple rules will ensure you have a memorable experience, while keeping everyone's best interests on mountain pastures and meadows in mind.
